

California Extended Water and Wastewater Arrearage Payment Program

Current List of Applications and Application Review Status (as of 12/31/2023)

The following table lists the applications submitted by community water systems, wastewater systems, and wastewater billing entities for the Extended Water and Wastewater Arrearage Payment Program (Program) for water and wastewater arrearages. The table lists the status of the review of the application by Program staff.

The application period for the Program runs from November 1, 2023, through December 31, 2023. Late applications will be accepted until January 31, 2024, however late applications are not guaranteed funding. Disbursements will begin following the 60-day application period and are anticipated to start by the end of January 2024.

If you have submitted an application for the Program, but do not see your entity on this list, please contact Program staff at DFA-WaterArrearages@waterboards.ca.gov to ensure your application was received.

Customers of water and wastewater systems cannot individually apply for this Program, however, are encouraged to contact their water and wastewater systems to request that they apply.

Applicant Name	Date Application Received	Total Funding Request	Application Review Status
Alameda Water District	12/20/2023	\$1,132.06	In Review
